

## Visit to Environmental Sanitation Institute, Sugadh

Date: 13<sup>th</sup> April, 2022  
Time: 02:30 pm to 06:15pm

# Smt. S.R. Patel Engineering College Industrial Visit Report

### Objective-

The main objective of the workshop was to explain the demonstration of importance of environment preservation and sanitation. The economic and feasible sanitation process was being demonstrated. The visit was to clearly visualize the conceptual facts in real life application.

### Summary:

The Session started with the expert lecture economic and feasible sanitation process. Later we all went to explore the institute. The sanitation process was completely explained with practical process. Then we got to see the water body purification experiment by a special kind of fish species. The mechanism was seen of how the institute maintained its temperature during the summer season. The team members were quite interactive and cleared whatsoever doubt raised in the visit of the students.
