

Visit Date: 17th October
2022

10:30 A.M. to 04:00 P.M.

Industrial Visit Civil—7th Sem.

Visit at Mehsana Airport

Objective of Visit:

- The purpose of this visit was to gain practical knowledge and understanding of airport operations, Runway orientation, Runway Marking, Taxi way, Apron etc.,

On 17th October 2022, 42 engineering students from Smt.S.R.Patel Engineering College visited Mehsana Airport for an industrial visit. The purpose of this visit was to gain practical knowledge and understanding of airport operations, Runway orientation, Runway Marking, Taxi way, Apron, Hanger etc.,

Airport Infrastructure:

Mehsana Airport is a domestic airport located in Mehsana. It has one runway, measuring 3280 ft and one terminal building. The airport has facilities like domestic Aircraft landing and takeoff operation, Training for aircraft Pilot, Aircraft Repair and Maintenance etc., .

Operations and Management:

During the visit, the students had the opportunity to witness various airport operations like Aircraft landing and takeoff operation, Aircraft repairing and maintenance operation and aircraft ground handling. The students also interacted with the airport management team, who explained the various challenges faced by them in day-to-day operations.

Conclusion:

The industrial visit to Mehsana Airport was a valuable experience for the Civil engineering students. They gained practical knowledge and understanding of airport operations, maintenance, and management. The visit helped the students to understand the importance of safety and security in an airport environment. Overall, it was an enriching experience for the students, and they expressed their gratitude to the airport management team for providing them with the opportunity to visit the airport.
