

Department : Civil

Year : 2018-2019

Group No: 13

Guided By

**PROF. SHAILENDRA  
SINGH  
PROF.SMRITHI A**

SMT. S. R. PATEL ENG INEERING COLLEGE, UN JHA

**Project Title**

**CONSUMPTIVE USE OF SURFACE WATER AND GROUND WATER**

**Abstract:**

In this context, the paper examines the main aspects and problems concerned with the planning, design, construction and management of conjunctive use of surface and subsurface water resources, along with its environmental impacts and constraints to sustainable development. The importance and role of research thrust, technology transfer, institutional strengthening, effective partnerships between governments and stakeholders, and sound financial frameworks are also examined. Finally, the challenges and benchmarks for future actions that the scientific community and planners have to face and deal with, are briefly outlined.
